TECHNOLOGY.
DYNAMISM.
PEOPLE.

iMiCUBE

We are people who believe in quality, innovation and sustainability as essential values in business, as guides to behaviour and as the real substance of any modern vision. These are the values we rely on to inform the everyday conduct of our work, with the deep conviction that espousing them does not invite the risk being unprepared for an already imminent future, with its need for interaction, speed and mutual satisfaction between customer and supplier, who, now more than ever, are partners in the challenge for competitiveness.

These are the values of our present and our past, rooted in **the story of an enterprise begun by Mario Milani in 1929** and carried forward by Gianni Milani. It was the latter who, in 1972, had the illuminated idea of the innovative importance of plastic containers as a tool to help businesses manage space more rationally.

Now the third generation will write the next chapter of this story with iMilani CEO Roberto Milani, who envisioned this new business venture as a natural consequence of the need to enter the market with a streamlined, "open space and open mind" production process. Alongside him will be Gianluca Marzano, who, having gained valuable experience as COO of Fami, is also CEO of iMilani today.

iMilani is therefore eager to face the challenge of the present as a modern and reliable player, ready to accommodate the demands of the industrial world and of the wider community. Regarding the latter, it pursues 100% environmentally friendly policies and positions itself as an eco-sustainable company that prioritises the use of recycled and recyclable materials, within a controlled and fully internal production chain.

iMilani wants to serve customers with product lines tailored to their needs. It has thus come up with the "iMiCUBE" line, a series of boxes and containers with a wide usage spectrum and the "iMiLOG" line, a range of specialised containers designed exclusively for use with automatic systems, whether they are stacker cranes or mini-shuttles.

iMilani is ready.

Roberto Milani
CEO

Gianluca Marzano
CEO

¡MiLOG

In addition to offering a wide range of boxes and containers, as well as accessories such as pallets and covers, iMilani also provides expertise in logistics automation.

In this regard, the **iMiLOG** specialist division can provide its technical staff for advice and the implementation of specific systems, using either the dedicated **SPACE** series or boxes and trays made to specific customer requirements.

iMiLOG works with leading manufacturers of logistics automation nationally and in Europe.

To request assistance from our technicians, send an email to *automation@imilog.it*

MATERIAL: POLYPROPYLENE AT ITS BEST

PP

TOP QUALITY POLYPROPYLENE AND POLYPROPYLENE FOR FOOD PRODUCTS

Top quality polypropylene is a non-toxic, odourless plastic that is resistant to solvents and acids. It can be washed and sterilised and is water-resistant and non-hygroscopic. Its chemical and mechanical properties make it perfect for the manufacture of boxes and containers, ideal for handling in automatic warehouses.

Food safety

Polypropylene for food use is a material that conforms to current EU legislation governing the characteristics of packaging and containers for contact with food. This plastic material is very widespread in the food industry, from product preparation and packaging to storage and shipment.

PP branching under presses.

ECOGREEN

Ecogreen is an environmentally friendly solution that gives new life to recycled plastic, derived from the re-use of post-consumption plastic waste.

CONDUCTIVE POLYPROPYLENE – ESD

Conductive polypropylene is a high-quality plastic, perfect for protection against electrostatic discharges. Boxes made from conductive polypropylene are perfect for storing and transporting sensitive electrical components.

FIREPROOF POLYPROPYLENE CLASS V0

PP V0

Fireproof polypropylene, replicable in different colours, prevents fire risks in automated warehouses and is a viable alternative where the use of traditional fire sprinkler systems is not possible.

ECOLOGY AND SUSTAINABILITY.

# BECAUSE THE EARTH
IS THE MOST IMPORTANT VESSEL OF ALL

—

ALESSIA ZECCHINI

APNEA WORLD CHAMPION
WORLD RECORD HOLDER

The planet is the biggest home we have. The home that someone tomorrow will live in without even having anticipated it. It is a home open to anyone. It is perfect. That's how we find it, and how we should leave when we finally go. Or even better than we found it.
We want to make the same commitment also when our plastic product reaches the end of its life, meaning after 450 years.
Environmental protection is a priority, not an option.

And we don't just mean our surrounding environment, but also, and above all, that expanse of water so vast that it covers over 70% of the Earth's surface: the sea.
The iMilani commitment to recycling of post-consumption household plastic, involves the processing of more than 1200 tons per year: a little contribution towards a "Plastic-free Sea".

But we should not view plastic as a demon, but rather as we would the clay of the ancients, lending itself to man's imagination and taking on forms and applications useful to us in everyday life, giving rein to the imaginative project, "Plastic-free Sea".

Impact test
with pendulum.

MATERIAL CHARACTERISATION DEPARTMENT

THE RAW MATERIAL AT THE CENTRE OF OUR ATTENTION

When materials arrive at our company, the first thing they see are our laboratories. Each new arrival is carefully checked and certified according to our strict quality standards, with composition tests and mechanical, thermal and functional tests. Only materials that pass these tests are placed in our silos.

When the products have been moulded and the plastic has stabilised, this is the time for further tests: bottom bending and box structure resilience. Only after this process takes place products are released from the plant and sent to customers.

i.Milani

innovative
italian
ideas

MELT FLOW TESTER

This is a testing machine that determines the Melt Flow Rate of plastic, in other words the fluidity properties of the raw material in accordance with ASTM and ISO international standards.

This value is extremely important during the raw material transformation phase, because thermoplastic materials are processed under pressure and at a certain temperature. The ability of these melted materials to flow under pressure at a certain temperature is essential to the science and technology behind polymers.
Melt Flow Tester.

TRACTION TEST

During the product design phase, we need to optimise the usage of materials in order to create items that are strong, but also light and rigid at the same time. Two of the reference properties are elasticity and resistance to traction. The traction test is carried out using two vices that secure the extremities of specifically-shaped test pieces and subject them to traction. The test result is a value indicating the breakage or yield load of the raw material. When suitably measured with an extensometer, the test piece also provides the traction elasticity module. The machine is designed to carry out tests on a wide range of test pieces in accordance with ASTM and ISO international standards.

IMPACT TEST WITH PENDULUM

For users of the materials, impact resistance is one of the most important properties. It provides an efficient assessment of the cost/performance ratio during product development and quality control.

Because components might yield when subjected to a force that is lesser than the critical breakage force, it is necessary to accurately determine the propagation of fractures following an impact. The pendulum machine is designed to carry out Charpy and Izod type tests on a wide range of test pieces in accordance with ASTM and ISO international standards.

MOULD DEPARTMENT

# THE MOST INNOVATIVE INJECTION MOULDING IS MADE IN IMILANI

18 injection moulds operating on **3 shifts**. From the moulding of small parts to boxes sized 800 x 600 mm. The moulds are designed for the application of labels with an IML In-Mould Labelling system. This is used both for customisation and the application of barcodes, on-machine weighing and tolerance testing.

iMilani

innovative
italian
ideas
THE PROCESS

The mixture of various "grains" and colours is heated until a homogeneous and mouldable paste is achieved. This is then inserted into the mould to create a product in the desired shape: a box, a finishing element or a mechanical part. The presses and moulds are connected via silos, rollers, testing positions, and technical and commercial information systems making up the company's control and value chain. At the end of the process each product is tested and checked to ensure that there are no imperfections. The product is delivered to the customer only if it is just perfect.

ODETTE

PP 5

The distinctive yellow-coloured boxes of the Odette series were designed and built under the "Odette" project (Organisation for Data Exchange by Tele Transmission in Europe). The organisation's membership includes a number of important Italian and international companies, operating in particular in the automotive industry.

The "Odette" boxes came into being thanks to close cooperation with European car makers. The "Odette" project was launched Europe-wide in 1985 to create harmonised standards for containers for the handling and transport of small volumes or amounts.

MATS

ANTI-SLIP
The particular pattern in relief on the upper part has a non-slip design, ensuring maximum grip even when wet.
WIRING
The non-slip mats are suitable for the totally safe housing of electric cables laid on the floor.

SAFETY
The linear and corner connecting ramps increase safety for operators using trolleys, ease the rolling of wheels and improve visual characteristics for accident prevention.

CLIP
All parts can be joined and removed quickly and easily by means of the special galvanised clip system.

4
PE-LD

These mats are made of PE-LD (low density polyethylene) and are suitable especially in engineering workshops, metal processing industries, washing installations, food industries, warehouses, bathing facilities, campsites, wardrobes, etc.

The summary results of testing in the Plastics Centre of Southern Germany were as follows: the mats showed good floor adherence both in no-load and full-load conditions; they did not form bevels (which may cause the user to stumble) or large gaps. Also, they remain equally usable in damp conditions as they have a raised surface.

SAFELID

5
PP

SafeLid is the safest, most versatile and affordable way to secure loads during transport. Available in 3 sizes – 800x600 mm, 1200x800 mm and 1200x1000 m – SafeLid can be supplemented with security seals, thus ensuring load inaccessibility. Also, there is no longer any need to use stretch film, thus increasing savings in time, cost and environmental protection.

MOTION

♻ 5
PP

Motion is a trolley made of high-impact polypropylene and can be stacked when not in use.

A simple coupling system means you can create rows of trolleys with a single movement.

Available with black nylon wheels as standard.

Blue non-marking wheels, shown on this page, are available on request.

With the use of a top lid, it is also suitable for the transport of Delta boxes, stably and safely.

To facilitate the transport of multiple trolleys, a height-adjustable telescopic drawbar is provided.

COUPLING SYSTEM

The MOTION coupling system gives the option of connecting trolleys both on the short and long sides, enabling the user to shift more loads together or to prepare them for transport.

STACKING

The special design of the MOTION supporting surface allows trolleys to be stacked safely and stably, with cross-positioning of the various levels.

SWIVEL WHEELS

The MOTION trolley is equipped with 4 black nylon swivel wheels as standard, 100 mm in diameter.
Upon request, it is also possible to have TPR 75 mm diameter wheels in non-marking material, as shown in the photo to the left, to help maintain the appearance of resin flooring.

BARCODE AND LOGO

A customisation option is available for a logo to be applied by hot marking on the sides of the MOTION trolley.
There is also provision for 2 protected areas on each side of the MOTION trolley for the application of barcode labels or tags; they can be supplied together with the trolleys in accordance with the customer's specifications.

ATHENA

ATHENA LIGHT

ATHENA

PP 5

The variety of materials and sizes of the Athena series of boxes make them suitable for use in all sectors, with optimal adaptability to storage and distribution requirements. They are stackable with and without lids and conform to euro-pallet sizes.

Edges and reinforcements are designed to give the boxes structural strength to withstand the heaviest loads. The bottoms and walls of the boxes can be closed or perforated.

The handles can also be in open or closed mode. The varied composition of these elements permits a wide range of solutions and does not exclude the option of customised solutions.

LIDS

hinged   with handles   sliding

Use of the lid does not exclude the option of stacking the boxes

CLOSING CLIPS

The lid of the Athena series box in the version with hinges and with handles can be closed with a sliding fastener in nylon.

closing with lead

PARTITIONED BOXES

Partitions offer a systematic way to divide Athena series boxes into two or more compartments, depending on the solution chosen. A handy dust LID is available in transparent polystyrene, fitted with a lifting grip.

iMilani

innovative
italian
ideas

COMB DIVIDERS

To organise and protect particularly delicate articles or materials that must not come into contact with other products during handling and storage, the box can be partitioned by means of comb dividers.

They are of plastic or ESD construction and are available in five heights; the dividers feature slots positioned 20 mm apart, allowing the systematic and variable subdivision of the interior space of the boxes according to the user's needs.

Dividers can be made to measure to satisfy any requirement.

INTERMEDIATE SHELF

Made of honeycomb polypropylene, the intermediate shelf acts as a separator if the box has to be divided into more than one layer. The side grooves on the lid facilitate gripping and removal.
DOCUMENT HOLDER SPRING

The Document holder spring snaps onto the long or short side of the Athena box and can be used to secure transport notes or other documents.

ATHENA LIGHT

5
PP

The Athena Light box series has been designed and built in alignment with new techniques for the warehousing and transport of a wide range of materials. Lightweight and manageable, the boxes are available in grey or turquoise polypropylene.

Unlike the Athena series, they are available only in the 600 x 400 x 220H mm size and have larger holes, allowing for greater ventilation and visibility of the product.

HANDLES

open handle

closed handle

WALLS

closed walls

perforated walls

BOTTOMS

closed bottom

perforated bottom
comb dividers
and intermediate shelf

Refer to the Athena section
on page 97

LIDS

hinged

with handle

closing clips

closure with seal

The lid of the Athena Light
series box in the version with
hinges and with handles
can be closed with a sliding
fastener in nylon.

Document holder spring

The Document holder spring snaps onto the
long or short side of the Athena Light box and
can be used to secure transport notes or other
documents.

CONTAINER

PE-HD

Injection moulded container in High Density Polyethylene (HDPE), also suitable for food use. Fully recyclable material, initial melting guarantee and certification. Easy to clean and impervious to rust; insensitive to weight changes on contact with water.

Highly resistant to UV and infrared rays, high and low temperatures, acids and alkalis. Designed to be stackable, thus facilitating storage and handling operations.

PALLET & LID

5 PP   2 PE-HD   2 R-PE

The pallet was invented over 80 years ago, in the form of a simple wooden structure to be placed under material to facilitate handling.

Since then, much progress has been made, not only as regards vehicles but also in materials and geometrical research to make pallets endlessly reusable, easy to wash and producible in sustainable materials.

For increased load retention and safety, goods placed on pallets can be protected with the use of lids, of thermoforming or injection moulding construction.

PALLET K SERIES

This is a pallet with a new-generation monolithic structure without seams or joints, designed to improve the entire logistics process. It facilitates mechanical and manual handling and has been tested to ISO 8611-1991 standards.

It is has excellent resistance to falls and is highly tolerant to twisting and pressure exerted from top to bottom and vice versa.

Made of 100% recyclable black polypropylene. The grid support surface facilitates cleaning.

Can be customised with hot marking, barcodes and RFID.

PALLET J SERIES

Injection moulded pallet in High Density Polyethylene (HDPE) also suitable for food use, made of fully recyclable material, initial melting guarantee and certification.

Easy to clean and impervious to rust, insensitive to weight changes on contact with water.

Highly resistant to UV and infrared rays, high and low temperatures, acids and alkalis.

Can be customised with hot marking, barcodes and RFID.

PALLET M SERIES

Made from recycled polyethylene, fully environmentally-friendly.

The M Series pallets can be inserted one inside the other, thanks to their specially designed feet.

It is available for light and medium loads. The light-load model is nevertheless very durable and can also be used as a disposable pallet.

The honeycomb structure surface of the medium-load model makes it suitable also for intensive use.

Both versions can be customised with hot marking, barcodes and RFID.

LIDS

Available in 800x1200 mm and 1000x1200 mm sizes, they are made of high density polyethylene in the thermoforming version, which is lighter and more manageable, while polypropylene is used for the injection version.

Easily cleaned and reusable, they can be customised with hot marking, barcodes and RFID.

KRONOS

DELTA

MINERVA

KRONOS

♻ 5
PP
KRONOS foldable boxes have been designed and manufactured to significantly reduce the overall space occupied when not in use and during transport of empties. Their volume reduction of up to 75% therefore leads to high savings in storage and transport costs. KRONOS foldable boxes are equipped with a sturdy stacking edge and ribbed outer walls at the highest stress points: these structural features give the boxes extra durability over time.

Lightweight and manageable, they adapt perfectly to normalised pallets. Their flat bottoms allow use on all types of roller beds, thus giving great flexibility also in internal handling.

The short sides are supplied with handy label holders and comfort handles for easy grip; the handles can be closed with the use of special casings.

WALLS

handle closure casing

When used with the lid, the box can be fastened shut with disposable seals that are also customisable: the seals are applied on the two-flap lid and on the opening mechanism positioned on the two short sides of the box.

DELTA

5
PP

Boxes in the Delta series have a truncated cone structure, allowing for stable and safe stacking at full load. When empty they can be inserted one inside the other, resulting in a 70% reduction in volume.

These properties make them perfect for maximising warehouse space and transport space. They are particularly useful in shipment returns when empty or when packaging must take up the least possible space.

SAFETY

With the separate or hinged two-flap lids, the box can be fastened shut with dedicated disposable seals as well with commercially available nylon ties.

In addition to these, straps can be used both on the short and long sides, with containment points provided to prevent unauthorised removal of the straps.

STACKING

By shifting the pair of yellow supports towards the inside or the outside, the boxes can be stacked and interlocked.

In the version with the two-flap lid, you can stack the boxes and interlock them. Stacking with the lids open ensures geometrical consistency of the battery of boxes.

TRANSPORT

The wedges on the edges of short sides ensure the stability of the box in the event of accidental interruptions during the advance of automatic rollers and conveyor belts.

The external surface of the bottom has a smooth frame and rounded edge, for a silent impact on conveyor system rollers. Additionally, the surface of the central part is designed for increased adherence, ideal for safe transport over flat surfaces and conveyor belt ramps in ascent and descent.

MINERVA

♻ 5
PP

Boxes in the MINERVA series have a truncated cone structure, allowing for stable and safe stacking at full load. When empty they can be inserted one inside the other, resulting in a 60% reduction in volume.

These properties make them perfect for maximising warehouse space and transport space. They are particularly useful in shipment returns when empty or when packaging must take up the least possible space.

HANDLES

open handle

WALLS

closed walls

perforated walls

BOTTOMS

closed bottom

perforated bottom

The Minerva series boxes have asymmetrical wall geometry. This characteristic means that, without having to use the lid, you can create a stack when they are empty, or when they are full by simply rotating the box by 180°; they can thus be nested when empty or stacked when full.

When the separate lid is used, however, stacking of the full box does not require any rotation.

Boxes stacked with lid

Boxes stacked without lid

5
PP

The Compat container series is the ideal solution to any storage problems in the warehouse, workshop or on assembly lines. They allow you to have the contents always at hand and in full view, making them easily extractable.

These containers can be stacked stably and safely and the material is just as easily accessible even when they are one on top of the other.

BOTTOMS

smooth bottom

ribbed bottom

bottom ribbed at 45°
with crossbar
CROSSBAR

The largest containers are equipped with a frontal crossbar that helps prevent any deformation of the side walls due to large loads and to facilitate grip.

HANDLES

Lifting and transport are aided by convenient handles that allow for quick grip even with gloves.

SIDE REINFORCEMENT

Lateral reinforcement on the bottom allows the containers to be stacked safely even when fully loaded.

ACCESSORIES

The containers can be divided longitudinally and transversely for load units with multiple products inside them.

Practical transparent doors protect against dust.

Internal partition with removable boxes

PRACTIBOX

5 PP

The Practibox series of drawer units consists of grey ABS structures and high mechanical strength drawers in transparent polystyrene.

Available in models of different depth and height, they share a standard 600 mm width that allows stacking in a wide range of combinations.

DRAWERS

The drawers, made in high mechanical strength transparent polystyrene, are housed in the ABS container, designed to be positioned on Practibox shelves and in trolleys or fixed to the wall with anchor bolts.

STACKING

Practibox drawer units are available in different depths and heights but have a standard width of 600 mm. This features means that modules of the same depth or lesser depth can be stacked, allowing a wide range of combinations.

TILTED OPENING

Equipped with a handy tilting door opening, Practibox drawer units offer excellent access to the product.

ORDER

Equipped with a practical handle, Practibox drawer units meet the most varied needs.

RK

5
PP

Everything in order and clearly visible for flexible and functional storage: this is the result of the design and construction of the RK series of polypropylene boxes and their dedicated shelving system.

Available in eleven different sizes to meet every need, the drawers are ideal for spare parts dealers on account of their resistance to oils and their internal divisibility.

WALLS

Made of top quality polypropylene, the RK boxes have walls strengthened with special ribbing to protect against shocks.

LABELS

Fitted with label holders available in various sizes proportionate to the size of the boxes to which they are applied.

HANDLES

A special handle can be supplied on request for easy lifting and transportation of the RK boxes.

BOTTOMS

smooth bottom

DIVIDERS

Made of transparent polystyrene, the dividers allow the inside of the boxes to be partitioned into several compartments.

ZEUS

♻ 5
PP

The Zeus box series meets the most exacting needs for goods containment, handling and storage.

Manageable, lightweight and easy to clean thanks to a perfectly smooth interior, they have a sturdy edge that allows stable and safe stacking. Stackability combined with high storage capacity results in ideal use of space.

BOTTOMS

smooth bottom

ribbed bottom

bottom ribbed at 45°
with crossbar
SIDE REINFORCEMENT

Lateral reinforcement on the bottom allows the boxes to be stacked safely even when fully loaded.

STEEL

222

FOX

236

QUICK

FOX

FOX trolleys are supplied complete with 2 shelves and Athena boxes or alternatively with 2 shelves and Compat containers.

Additional shelves complete with boxes and containers can be supplied separately.

Alternatively, FOX trolleys can also be ordered complete with 2 groups of Practibox tilting containers.

Again, the trolley can be supplemented by ordering additional shelves equipped as per the user's needs.

WIDTH

The FOX trolley series is available with a height of 1430 mm and 2 different widths:
- Free span shelves 657 mm for FOX 06 trolleys
- Free span shelves 955 mm for FOX 08 trolleys

Pitch:
A = 687 mm
Pitch:
A = 985 mm

SHELVES AND WHEELS

The tiltable shelves for FOX trolleys of length 955 mm and pitch 985 mm can be in 4 depths: 220, 320, 420 and 600 mm.

The tiltable shelves for FOX trolleys of length 657 mm and pitch 687 mm can be in 2 depths: 220 and 420 mm.

In addition to tilted shelves, the trolley is also configurable for fixed shelves for containers, with different depths available in both cases.

The trolleys are supplied as standard with mounted wheels and disassembled frame.

125 mm diameter rubber wheels, 2 fixed and 2 swivel with brakes,

are supplied as standard.

ACCESSORIES

To make the best use of the trolley spaces, optional accessories are available such as Practibox containers and reinforcing cross supports.

ADJUSTMENTS

The perforated crosspiece base allows for adjustment of the uprights and the insertion of different types of boxes, giving maximum flexibility for installation of the smallest to the largest boxes.

QUICK

QUICK shelf units are supplied complete with 2 shelves and Athena boxes or alternatively with 2 shelves and Compat containers.

Additional shelves complete with boxes and containers can be supplied separately.

QUICK shelf units make picking operations more efficient, reducing the frequency errors and providing high visibility of stocks.

STRUCTURE

The QUICK series shelf unit, with a height of 1817 mm, is available with two different solutions: single-sided and double-sided, allowing insertion of shelves on one or both sides.

double-sided frame with cross support

single-sided frame with cross support

925 mm

542 mm

SHELVES

fixed shelves
tiltable shelves

The tiltable shelves for QUICK shelf units of length 955 mm and pitch 985 mm are available in 4 depths: 220 - 320 - 420 - 600 mm.

In addition to tilted shelves, the trolley is also configurable for fixed shelves for containers, with different depths available in both cases.

BOXES AND CONTAINERS

The slots in the uprights allow the use of different types of containers including COMPAT sizes 1/2/3/3A2/4/4A2 and ATHENA series boxes.

COMPAT

ATHENA

ADDITIONAL SHELF UNITS

With additional shelves it is possible to connect a new bay to the existing one, thus saving space and the cost of an additional upright and foot.

Load capacities are net and refer to evenly distributed loads.
The accessories and the materials stored in the truck must not protrude from the base of the truck.

FRAME

The FRAME shelf unit is precisely sized to house Athena, Athena Light, Kronos, Odette, Compat and Zeus boxes.

There are two available heights: 1010 mm and 2010 mm.

The paired guides that support the box container are adjustable in height and have a pitch of 25 mm and maximum load capacity of 50 kg; boxes and containers of the same width but with different depths and heights can be inserted in the same bay.

The load capacity of the bay is 250 kg.

The modularity of the system allows the existing systems to be extended at any time without removal of the existing one.

UPPER SUPPORT SURFACE

The surfaces are fixed to the top of each bay and, as well as strengthening the shelf unit, act as dust covers and bearing surfaces.

SHELVES

The guides for the sliding of the boxes are fastened to the uprights and secured using the attachment clip. Adjustable height with 25 mm pitch.

SIDES

The sides are supplied mounted and have a lateral fissure with a pitch of 25 mm and are complete with legs for fixing to the ground.
Load capacity 250 kg.

PAIR OF RETAINING BRACKETS

The brackets are fixed to the sides of the uprights with four self-tapping screws to make the structure more stable.

PICK

PICK container holder cabinets are the ideal commercial and industrial storage solution for small parts and small items.

They consist of a steel sheet structure with height-adjustable shelves, which can be variable in number according to the user's needs.

They are compatible for insertion of Compat containers series size 1 or 2 and Practibox container series, from 3 to 9 tilting.

These cabinets can be supplied without door or with door and lock.

ADJUSTABLE SHELVES

THE cabinet can be partitioned with height-adjustable shelves, 25 mm in pitch, with insertion of as many shelves as needed.
CONTAINERS

The PICK cabinets can be fitted with Compat series containers in sizes 1 and 2, as well as the Practibox tilting drawer unit series, numbers 3 - 4 -5 - 6 - 9.

REAR STOP

A rear stop can be applied to the shelf to prevent the depthways displacement of container size 1
SAFETY

For safety purposes, PICK container holder cabinets must be fixed to the floor or wall.

SQUARE

SQUARE shelf units are stackable and can be used to create complete wall shelving installations units, in accordance with available space.

SQUARE shelf units consist of steel structures in RAL7000 grey colour and 8 different configurations, for Zeus series boxes and Compat series containers.

The warehouse configurations of SQUARE shelf units can be easily modified since the individual compositions are monobloc structures – a solution that not only allows for rapid preparation of the area, but also imparts considerable strength even at full load.

DUST PROTECTION COVER

Use of the dust cover also protects the material from accidental loads.
Constructed in RAL7000 grey steel.

WORKTOP

The worktop allows the creation of comfortable, practical workstations for the distribution of materials.
Constructed in RAL7000 grey steel.

PLINTH

The plinth raises the shelf unit 85 mm from the ground, insulates it from the floor and prevents the bottom row of boxes/containers from touching the ground during extraction.
Constructed in RAL7000 grey steel.

CONTAINERS

Individual boxes/containers can be extracted easily and quickly and a special hook positioned at the front on the guides prevents total or accidental ejection.

GENERAL TERMS AND CONDITIONS OF SALE FOR IMILANI PRODUCTS

1. DEFINITIONS
1.1 WITHIN THIS AGREEMENT, THE TERMS SPECIFIED BELOW SHALL HAVE THE FOLLOWING MEANING:
A) BUYER: ANY TRADER WHO PURCHASES OR PROPOSES TO PURCHASE FROM IMILANI THE PRODUCTS MARKETED BY IMILANI;
B) ORDER CONFIRMATION: REFERS TO THE DOCUMENT WITH WHICH IMILANI ACCEPTS A PROPOSAL;
C) INCOTERMS2010: INCOTERMS OF THE INTERNATIONAL CHAMBER OF COMMERCE, IN THE TEXT IN FORCE AT THE DATE OF FINALISING THE ORDER;
D) ORDER(S): MEANS THE CONTRACT, FORMED BY THE PROPOSAL SUBMITTED BY THE BUYER AND THE ORDER CONFIRMATION ISSUED BY IMILANI, WHICH REGULATES THE SUPPLY OF PRODUCTS;
E) PARTS: IMILANI AND THE BUYER;
F) PRODUCTS: GOODS COVERED BY A SALE OR SALE NEGOTIATION;
G) PROPOSAL(S): THE REQUEST(S) TO PURCHASE THE PRODUCTS SENT BY THE BUYER TO IMILANI.

2. FIELD OF APPLICATION
2.1 THESE CONDITIONS OF SALE (HEREINAFTER THE "CONDITIONS") APPLY BETWEEN IMILANI SRL (HEREINAFTER "IMILANI") AND THE BUYER EVEN WHEN THEY HAVE NOT BEEN AGREED UPON OR REFERRED TO BY THE PARTIES.
2.2 ANY EXCEPTIONS SHALL BE VALID ONLY IF CONTAINED IN SEPARATE DOCUMENTS SIGNED BY THE PARTIES.
2.3 THE GENERAL TERMS AND CONDITIONS OF SALE ARE AN INTEGRAL PART OF ALL ORDERS, INCLUDING WHEN FINALISED BY TELEPHONE, VERBALLY, BY FAX, EMAIL OR INTERNET.
2.4 IN THE EVENT OF DISCREPANCIES BETWEEN THE PROVISIONS REFERRED TO HEREIN AND THOSE CONTAINED IN THE ORDER, THE LATTER SHALL IN ANY CASE PREVAIL.

3. FINALISATION OF THE ORDER
3.1 THE BUYER MAY SUBMIT PROPOSALS TO IMILANI EITHER DIRECTLY OR THROUGH AGENTS AND THEIR REPRESENTATIVES. HOWEVER, AN ORDER SHALL BE FINALISED ONLY AFTER AN ORDER CONFIRMATION HAS BEEN SENT BY IMILANI FOR EACH INDIVIDUAL PROPOSAL.
3.2 IMILANI EXPRESSLY RESERVES THE RIGHT TO EVALUATE ANY PROPOSAL AND SHALL NOT BE BOUND TO THE ACCEPTANCE THEREOF.
3.3 ANY SUPPLY OFFERS FROM IMILANI TO THE BUYER SHALL ONLY BE CONSIDERED FIRM AND IRREVOCABLE IF QUALIFIED AS SUCH IN WRITING BY IMILANI.
3.4 THE REGISTERED OFFICES OF IMILANI SHALL ALWAYS BE THE PLACE OF FINALISATION OF THE ORDER, INCLUDING ORDERS THAT ARE FINALISED ELECTRONICALLY.

4. DELIVERY TERMS
4.1 IMILANI SHALL DELIVER THE PRODUCTS EX-WORKS (EXW INCOTERMS2010). IF REQUESTED, IMILANI SHALL TAKE CARE OF THE TRANSPORTATION OF THE PRODUCTS, AT THE RISK, COST AND EXPENSE OF THE BUYER. THE PAYMENT OF TRANSPORT COSTS BY IMILANI SHALL NOT AFFECT THE RISKS OF THE SHIPMENT, WHICH SHALL CONTINUE TO BE BORNE BY THE BUYER AT THE LATEST UPON DELIVERY OF THEPRODUCTS TO THE FIRST CARRIER.
4.2 THE DELIVERY OF THE PRODUCTS MUST TAKE PLACE BY THE DEADLINE SPECIFIED IN THE ORDER, CALCULATED IN WORKING DAYS. HOWEVER, THE DELIVERY DEADLINE IS PURELY INDICATIVE AND IS NOT AN ESSENTIAL TERM OF THE CONTRACT AND, IN ANY CASE, DOES NOT INCLUDE TRANSPORT TIME.
4.3 UPON RECEIPT OF THE NOTICE OF GOODS READY FOR PICK-UP, THE BUYER MUST COLLECT THE PRODUCTS WITHIN A DEADLINE OF 10 (TEN) DAYS. SHOULD THE BUYER DEFAULT, THE PRODUCTS MAY BE STORED OUTDOORS, WITH IMILANI RELEASED FROM ANY LIABILITY, AND ALL GUARANTEES BEING FORFEITED IN FAVOUR OF IMILANI; THE BUYER SHALL BE CHARGED FOR ANY HANDLING AND STORAGE COSTS INCURRED BY IMILANI, WHICH MAY ALSO, AT ITS DISCRETION, HAVE THE PRODUCTS PLACED IN STORAGE AT THE BUYER'S EXPENSE.
4.4 IMILANI SHALL BE ENTITLED TO ISSUE A REGULAR INVOICE WITHIN 10 (TEN) DAYS FROM THE NOTICE OF GOODS READY FOR PICK UP.

5. COMPLAINTS
5.1 ANY COMPLAINTS REGARDING THE PACKAGING CONDITION, QUANTITY, NUMBER OR EXTERNAL CHARACTERISTICS OF THE PRODUCTS (APPARENT DEFECTS) MUST BE SUBMITTED TO IMILANI IN WRITING, UNDER PENALTY OF FORFEITURE, WITHIN 8 (EIGHT) BUSINESS DAYS FROM THE DATE OF RECEIPT OF THE PRODUCTS.
5.2 ANY COMPLAINTS RELATING TO DEFECTS THAT CANNOT BE IDENTIFIED THROUGH DILIGENT CONTROL UPON RECEIPT (HIDDEN DEFECTS) MUST BE SUBMITTED TO IMILANI, UNDER PENALTY OF FORFEITURE, WITHIN 8 (EIGHT) DAYS FROM THE DATE OF DISCOVERY OF THE DEFECT AND REPORTED TO IMILANI IN THE MANNER PROVIDED UNDER THE WARRANTY CONDITIONS.
5.3 IN NO CASE SHALL AGENTS, CUSTOMERS OR INTERMEDIARIES OF IMILANI HAVE THE POWER TO REPRESENT IMILANI OR TAKE ANY BINDING OBLIGATIONS ON BEHALF OF IMILANI VIS À VIS THE BUYER OR OTHER THIRD PARTIES. TO THIS END, ANY NOTICE RELATING TO FAULTS OR DEFECTS OF THE PRODUCTS SHALL BE INVALID AND INEFFECTIVE IF MADE TO AGENTS, CUSTOMERS OR INTERMEDIARIES OF IMILANI.

6. PRICES
6.1 THE PRICES OF THE PRODUCTS SHALL BE THOSE SPECIFIED IN THE IMILANI PRICE LIST IN FORCE AT THE TIME THE ORDER IS FINALISED OR, IF THE PRODUCT IS NOT INCLUDED IN THE PRICE LIST OR THE PRICE LIST IS NOT AVAILABLE, THOSE SPECIFIED IN THE ORDER CONFIRMATION.
6.2 UNLESS OTHERWISE AGREED, THE AFOREMENTIONED PRICES SHALL BE CALCULATED EX WORKS (EXW INCOTERMS2010). THESE PRICES DO NOT INCLUDE THE COSTS OF SPECIAL PACKAGING, SHIPPING AND TRANSPORT FROM IMILANI'S PREMISES, WHICH SHALL BE BORNE BY THE BUYER. UNLESS OTHERWISE AGREED, THE BUYER SHALL ALSO BEAR ALL EXPENSES, TAXES OR DUTIES INHERENT IN THE SALE OF THE PRODUCTS, INCLUDING THE COSTS OF ALL CUSTOMS FORMALITIES (AS WELL AS ANY DUTIES, TAXES AND OTHER OFFICIAL CHARGES TO BE PAID FOR EXPORTING THE PRODUCTS).

7. PAYMENT CONDITIONS
7.1 WHERE THE TERMS OF PAYMENT ARE NOT SPECIFIED IN THE ORDER, THE PAYMENT MUST BE MADE WITHIN 30 DAYS FROM THE END OF MONTH INVOICE DATE, BY BANK TRANSFER. THE PAYMENT SHALL BE CONSIDERED PAID MADE WHEN THE SUM BECOMES AVAILABLE TO IMILANI AT ITS BANK IN ITALY.
7.2 IF THE PARTIES AGREED ON AN ADVANCE PAYMENT WITHOUT FURTHER SPECIFICATIONS, IT IS ASSUMED THAT THE ADVANCE PAYMENT REFERS TO THE ENTIRE PRICE OF THE PRODUCTS INCLUDED IN THE SUPPLY ORDER.
7.3 IF THE PARTIES HAVE AGREED ON PAYMENT BY DIRECT REMITTANCE, THIS SHALL BE DONE BY SWIFT TRANSFER – WITH FIXED VALUE DATE IN FAVOUR OF IMILANI ON THE DAY THE PAYMENT IS DUE – AT THE BANK SPECIFIED BY IMILANI.
7.4 IN THE EVENT OF PAYMENT DELAYED UNTIL AFTER THE AGREED DATE, DEFAULT INTEREST AT THE STATUTORY RATE SHALL BE APPLIED TO THE BUYER. IN ADDITION, IMILANI SHALL BE REIMBURSED FOR ANY COSTSINCURRED IN THE RECOVERY OF SUMS NOT PROMPTLY PAID.
7.5 THE BUYER IS NOT AUTHORISED TO MAKE ANY DEDUCTION FROM THE AGREED PRICE (E.G. IN CASE OF ALLEGED PRODUCT DEFECTS), WITHOUT PRIOR WRITTEN AGREEMENT WITH IMILANI.

8. FORCE MAJEURE
8.1 BOTH THE BUYER AND IMILANI MAY SUSPEND THE PERFORMANCE OF THEIR CONTRACTUAL OBLIGATIONS WHEN SUCH PERFORMANCE BECOMES IMPOSSIBLE OR UNREASONABLY BURDENSOME DUE TO AN UNFORESEEABLE IMPEDIMENT NOT UNDER THEIR CONTROL, SUCH AS FOR EXAMPLE, STRIKES, BOYCOTTS, LOCKOUTS, FIRES, WARS, RIOTS AND REVOLUTIONS, REQUISITIONS, EMBARGOES OR INTERRUPTIONS IN ENERGY SUPPLY.
8.2 THE PARTY WISHING TO INVOKE THIS CLAUSE MUST IMMEDIATELY INFORM THE OTHER IN WRITING THAT A FORCE MAJEURE CIRCUMSTANCE HAS OCCURRED AS WELL AS WHEN SUCH CIRCUMSTANCE NO LONGER EXISTS.
8.3 IF THE SUSPENSION DUE TO FORCE MAJEURE LASTS MORE THAN EIGHT WEEKS, EACH PARTY SHALL HAVE THE RIGHT TO TERMINATE THE ORDER, SUBJECT TO 10 DAYS' NOTICE, TO BE CONVEYED TO THE OTHER IN WRITING.

9. CHANGE IN THE BUYER'S FINANCIAL SITUATION
9.1 IMILANI SHALL BE ENTITLED TO SUSPEND THE FULFILMENT OF THE OBLIGATIONS ARISING FROM THE SUPPLY OF THE PRODUCTS IN THE EVENT THAT THE BUYER'S FINANCIAL SITUATION BECOMES SUCH AS TO SERIOUSLY ENDANGER THE BUYER'S PERFORMANCE OF ITS OWN OBLIGATIONS, UNLESS A SUITABLE GUARANTEE IS GIVEN.

10. APPLICABLE LAW AND JURISDICTION
10.1 THE GENERAL TERMS AND CONDITIONS OF SALE AND THE ORDERS ENTERED INTO BETWEEN IMILANI AND THE BUYER SHALL BE GOVERNED BY ITALIAN LAW.
10.2 FOR ANY DISPUTE REGARDING THE INTERPRETATION, PERFORMANCE, BREACH OR TERMINATION OF THESE GENERAL TERMS AND CONDITIONS OF SALE, THE COURT OF VICENZA SHALL HAVE EXCLUSIVE JURISDICTION, INCLUDING IN THE EVENT OF JOINDER OF PROCEEDINGS.

11. FINAL CLAUSES
11.1 SHOULD ONE OF THE PARTIES FAIL TO TAKE LEGAL ACTION OR EXERCISE A RIGHT UNDER THESE GENERAL TERMS AND CONDITIONS OF SALE, SUCH ACQUIESCENT CONDUCT MAY NOT BE INTERPRETED AS A FINAL WAIVER TO TAKE SUCH LEGAL ACTION OR EXERCISE SUCH RIGHTS IN THE FUTURE.
11.2 THE SALE OF PRODUCTS BY IMILANI TO THE BUYER DOES NOT GIVE THE LATTER ANY EXCLUSIVE TERRITORIAL RIGHT NOR DOES IT ALLOW THE BUYER TO TAKE ON THE STATUS OF DISTRIBUTOR OR RESELLER OF IMILANI.
11.3 ANY COMMUNICATION FROM THE BUYER TO IMILANI IN RELATION TO THESE GENERAL TERMS AND CONDITIONS OF SALE MUST BE SENT TO THE FOLLOWING CERTIFIED E-MAIL ADDRESS: IMILANISRL@LEGALMAIL.IT. THE AFOREMENTIONED COMMUNICATIONS SHALL TAKE EFFECT UPON RECEIPT BY THE RECIPIENT.

12. PRIVACY
12.1 IN ACCORDANCE WITH THE PROVISIONS OF LEGISLATIVE DECREE 196/03, BY ACCEPTING THIS CONTRACT, THE BUYER DECLARES THAT IT IS AWARE, AND EXPRESSLY AGREES, THAT ITS "PERSONAL DATA", PROVIDED (ALSO VERBALLY) BY ITSELF OR ACQUIRED DURING SALE TRANSACTIONS, IS KEPT WITH IMILANI IN ITS (PAPER, ELECTRONIC OR TELECOMMUNICATIONS) ARCHIVES AND PROCESSED AS PART OF THE CONDUCT OF BUSINESS ACTIVITIES OF IMILANI FOR MANAGEMENT PURPOSES, THE FULFILMENT OF LEGAL OBLIGATIONS, AND FOR STATISTICAL, COMMERCIAL, MARKETING, PROMOTIONAL AND CREDIT PROTECTION PURPOSES. SUCH DATA MAY ALSO BE: (A) DISCLOSED TO COMPANIES, ENTITIES, CONSORTIA OR ASSOCIATIONS RESPONSIBLE FOR CREDIT PROTECTION, (B) DISCLOSED/DISSEMINATED TO SUBSIDIARIES, PARENT COMPANIES OR ASSOCIATES ENGAGED IN COMMERCIAL, MARKET RESEARCH, MARKETING, MANAGEMENT OR IT MANAGEMENT ACTIVITIES; OR SUCH COMPANIES CAN BE GIVEN ACCESS TO THE AFOREMENTIONED ARCHIVES. IN RELATION TO THE PROCESSING OF SAID DATA, THE BUYER MAY EXERCISE THE RIGHTS INDICATED IN ART. 7 LEGISLATIVE DECREE 196/03 AND IMILANI HAS AN OBLIGATION TO COMMUNICATE WITHOUT DELAY ANY REQUESTS PURSUANT TO THAT ARTICLE. THE DATA CONTROLLER IS IMILANI IN THE PERSON OF ITS PRO-TEMPORE LEGAL REPRESENTATIVE. THE DATA CAN BE PROCESSED AT THE COMPANY'S REGISTERED OFFICES OR AT TAX CONSULTING FIRMS, AS WELL AS AT THE PREMISES OF ANY OTHER PROFESSIONALS THAT HAVE BEEN TASKED WITH PROCESSING THE ACCOUNTS AND ANY OTHER RELEVANT ASSIGNMENTS.

13. COMPLIANCE WITH LAW 231/2001
13.1 THE BUYER ACKNOWLEDGES THAT IMILANI HAS ADOPTED AND IMPLEMENTED AN ORGANISATION, MANAGEMENT AND CONTROL MODEL PURSUANT TO LEGISLATIVE DECREE 231/01, WITH ITS CODE OF ETHICS AND DISCIPLINARY SYSTEM, DETAILS OF WHICH CAN BE VIEWED ON THE COMPANY WEBSITE WWW.IMILANI.IT. THE BUYER ENDORSES THE PRINCIPLES OF THE AFOREMENTIONED ORGANISATION, MANAGEMENT AND CONTROL MODEL AND ITS ANNEXES, AND UNDERTAKES TO COMPLY WITH ITS CONTENTS, PRINCIPLES AND PROCEDURES AND, IN GENERAL, TO REFRAIN FROM ANY CONDUCT THAT MAY CONSTITUTE ANY OF THE OFFENCES SPECIFIED IN ITALIAN LEGISLATIVE DECREE 231/01, AS AMENDED, AND INCLUDED IN THE AFOREMENTIONED ORGANISATION, MANAGEMENT AND CONTROL MODEL. THE BUYER ALSO UNDERTAKES TO COMPLY WITH AND TO ENSURE ITS EMPLOYEES' COMPLIANCE WITH ALL THE PRINCIPLES CONTAINED IN SAID DOCUMENTATION AND BEHAVIOURAL PROTOCOLS PROVIDED BY OUR ORGANISATION IN ACCORDANCE WITH LEGISLATIVE DECREE 231/2001 AND THE ANNEXES TO THIS CONTRACT. ANY BREACH OF THE RULES PROVIDED BY THE AFOREMENTIONED DOCUMENTS SHALL CONSTITUTE A SERIOUS BREACH OF CONTRACT.
